

TOOL BAG SLING

The quick and easy way to get your tools to and from elevated work sites!

Now there's an easy way to lift as much as 1,200 pounds of tools to your work site. The Lift-All Tool Bag Sling can lift up to 300 pounds from each of its 4 legs. Leg lengths are in 8 inch increments for quick, one stop loading and unloading of tool bags.

Alloy steel master link for strength and durability.

Tuff-Tag permanent sling identification.

Tuff-Edge® II polyester webbing used on sling legs to help avoid cutting and abrasion.

Self locking hooks provide security while lifting, but can be easily opened with the push of a button. Alloy steel construction and electrostatically coated for long life.

Part # WTBS

40 In.
