

DRUM HANDLING SLINGS

Lift-All drum handling slings provide an easy, inexpensive way to handle steel drums. Available in two styles to suit your needs for handling drums in the vertical or horizontal position.

Vertical Drum Handling Slings

Easily lift standing drums for transport. Tilt suspended drums to pour from open top or spigot. For use with ribbed steel drums, the ratcheting belly band tightens securely below the first rib.

Lightweight version (**DSV601D**) uses 1" polyester sling webbing and is rated for 300-lbs.

Heavyweight version (**DSV602D**) uses 2" polyester sling webbing and is rated for 850-lbs.

Promotes Safety

- A wear pad is sewn on the inside of the lifting strap to prevent damage.
- Ratchet tightens locks securely.

Saves Time

- The free end of ratchet strap is sewn to stay properly threaded.
- Vertical legs are sewn to an adjustable belly band to maintain proper position.

Horizontal

To order specify Part Number DSH601D

Horizontal Drum Handling Slings

Ideal for the quick and easy lifting of steel drums in the horizontal position.

Part No. **DSH601D** uses 1" polyester sling webbing and is rated for 1,500 lbs.

Promotes Safety

- Strong 1" polyester webbing pulls drum hooks securely into rims at both ends of the drum during the lift.

Saves Time

- One sling fits multiple size drums.
- Easy to hook-up and disconnect.
- Uses 1/2" diameter oblong link at top for easy connection to hook.

Note: If used in a chemical environment, contact *Lift-All* for sling material options.
